Quality Management Policy**

Registration number:

Our company, SURVIOT Monitoring Ltd., develops, installs, maintains, and operates smart solutions for monitoring the movement and deformation of high-rise and civil engineering structures and their surroundings, both during construction and operation.

Our leaders and employees are committed to quality, and all our staff is required to lead by example in quality work.

We strive to ensure that our partners are satisfied with the quality of services we provide, supporting them in achieving their strategic goals.

We demand that our suppliers and service providers meet our specified quality standards, as their performance is a key factor in the quality of our services.

We ensure that the services we deliver comply with all relevant requirements, including Hungarian and international laws and standards, as well as the expectations set by our clients and partners.

We continuously improve our quality management system and processes to meet customer needs at an even higher level.
